Practical Solutions for the Bench Embryologist Get Answers to Your Everyday Questions

Save the Date: April 21st, 2011

Location: Hotel to be Determined | Los Angeles, CA

Irvine Scientific cordially invites you to participate in a seminar that will focus on practical solutions for some of the daily common questions in the lab. This session is sure to offer proven practical perspectives and information that can be implemented immediately to help embryologists perform their day-to-day activities more effectively and improve their outcomes.

Attendees will receive 0.3 CEU (PEER) credits from the American Board of Bioanalysis, St. Louis, MO.

Speakers:

Joe Conaghan, Ph.D., HCLD - Director, Embryology Laboratories, Pacific Fertility Center, San Francisco, CA

Juergen Liebermann, Ph.D., HCLD - Director, IVF Laboratory, Fertility Centers of Illinois, Chicago, IL

Jason E. Swain, Ph.D., HCLD – Scientific Director ART Laboratories, University of Michigan Center for Reproductive Medicine, Ann Arbor, MI

Topics:

Culturing High Quality Blastocysts: Five things you can do in your laboratory right away to improve results. Presented by Jason E. Swain, Ph.D.

Improve Your Pregnancy Rates: Getting patients, physicians, and the laboratory to opt for Elective Single Embryo Transfer. Presented by Juergen Liebermann, Ph.D.

The Embryologists Guide to Advanced Vitrification: What to freeze & when to freeze. Presented by Joe Conaghan, Ph.D.

This seminar is free of charge. The attendees are responsible for their hotel and transportation. Please RSVP to Joey Manhnavong, jmanhnavong@irvinesci.com or call 800.437.5706 ext. 232 by April 18th, 2011 to reserve your seat in advance. Additional seats will be available to those who do not RSVP.
