Irvine Scientific announced today a new distribution partnership with Prodimed, a company specializing in women's health, located in Neuilly en Thelle, France. Effective immediately, Irvine Scientific will be distributing Prodimed's extensive line of embryo transfer catheters, oocyte retrieval needles, and intra-uterine insemination cannulas within the U.S.A.

Prodimed has a long history of developing superior products and is a leader in the Assisted Reproductive Technology (A.R.T) industry worldwide. "We strive to serve our strong ART customer base with the highest quality products and our partnership with Prodimed will broaden our product portfolio and makes us a stronger leader in the field of A.R.T.", said Fairy Zare, Sr. Product Manager, ART.

Irvine Scientific, a subsidiary of Japan Energy Corporation, is a leading provider and manufacturer of medical devices and of a wide range of cell culture media. Irvine Scientific is a technology leader in the science of Vitrification with a worldwide franchise in Assisted Reproductive Technology (ART).
