# MAKLER<sup>®</sup> CANNULA (Catheter)

For Intrauterine Insemination

## UNIQUE FEATURES & ADVANTAGES

- SEALS THE CERVIX -** Preventing the leakage of the injected sperm.
- FLEXIBLE -** Fits itself to the curvature of the uterus.
- OPTIMAL SIZE -** Suitable for uterine cavities of all sizes.
- MINIMAL DEAD SPACE -** A small volume of washed sperm can be used  
-an advantage for sperm banks.
- ATRAUMATIC -** Harmless and painless.
- ECONOMICAL -** **Significantly low price.**

**MAKLER CANNULA (Catheter)** is available also in a short size for intracervical insemination.

- FOR BEST RESULTS -** It is recommended to use the **Makler Cannula** with the **Makler Insemination Device** which serves as a syringe holder and provides the best sealing mechanism during the insemination procedure.
